## Company Profile

For over 25 years,

Teco Diagnostics has been an industry leader in the manufacturing of in-vitro clinical diagnostic tests and instruments. From urinalysis to clinical chemistry, we have high quality solutions for your diagnostic needs. Based in Anaheim, CA, our manufacturing facility is FDA regulated, and thus all phases of our production processes are based on strict Current Good Manufacturing Practices (cGMP) regulations. In addition, our ISO 13485 certification ensures our company meets the international quality management system standard for medical device companies. We have always strived to work closely with the international community as evidenced by our doing business with customers in nearly 100 countries worldwide. We offer CE marking for many of our products and have already established registration in many countries.

## President's Update

Positioned in Anaheim, California, Teco Diagnostics was founded twenty eight years ago with the clear vision of providing innovative and affordable services to our clients through practical and profitable solutions. Built around four equally strong commitments to customers, communities, employees, and the environment, Teco Diagnostics' leadership brings together what we believe are the essential prerequisites for maintaining long-term health and growth of our company.

We are continued to be blessed with a humbling level of opportunity, and we have had the privilege of forming deep relationships with both new and old partnerships over the past few years. We have successfully reached key milestones, amplified our sales both globally and domestically, increased research and development initiatives, achieved significant technological advancements, and strengthened our position as the premier manufacturer of in-vitro diagnostic tests and medical devices. Teco Diagnostics is constantly working towards ways to take advantage of the evolving industry landscape to ensure that we remain a key contributor in the space.

The upcoming years will be exciting as we continue to broaden our business efforts and move from promise to product. We have set increasingly ambitious goals for ourselves, with the intense vision and resources to achieve them. We have the knowledge, experience and expertise to bring specialty products to niche markets, and are confident in our ability to successfully execute all of our efforts. Currently, and what to expect, is our new line of OTC products for Women's Health, Rapid Tests, and Advanced instrumentation for Urinalysis and Clinical Chemistry that will expand and complement our current line of urinalysis and clinical chemistry products.

Looking ahead, we are focused on accelerating the execution of our growth strategy while continuing to build on the strength of our brand. I would like to extend my thanks to our customers and our suppliers for their unfailing sense of devotion, responsibility, guidance, and support. I am incredibly excited about this journey and truly believe the best of Teco Diagnostics is yet to come.

Sincerely,

A handwritten signature in dark ink, appearing to read "Dr. KC Chen". The signature is fluid and cursive.

Dr. KC Chen  
President  
Teco Diagnostics

# Urinalysis

Teco Diagnostics is proud to introduce our complete line of Urinalysis products. From our world renowned Urine Reagent Strips (URS) to our semi-automated Urine Strip Readers. Teco Diagnostics' Urinalysis features:

- **Choice:** Our full line of strips can test from one to eleven parameters depending on your specific needs. We offer customized strips and OEM and Generic packing as well.
- **Innovation:** We are constantly working to develop new options for our customers, including the recent addition of our Micro-Albumin strips that allow clinicians to detect early signs of kidney damage.
- **Easy to use:** Strips can be read manually with included color charts, but Teco Diagnostics offers the perfect model for a physicians' office or small lab with the semi-automated TC-201. For medium to large labs, Teco Diagnostics offers the semi-automated TC-720 Plus and the fully automated TC-Thunderbolt.

## Urinalysis

Teco Diagnostics offers multiple types of urine strip readers: the semi-automated TC-101 and TC-201 are ideal for any physician's office or small lab. The semi-automated TC-720 Plus and automated TC-Thunderbolt are ideal for medium to large labs.

# Clinical Chemistry

Teco Diagnostics is proud to manufacture a complete line of clinical chemistry products. We offer over 75 clinical chemistry reagent kits, providing customers an abundance of options in terms of format (powder or ready-to-use liquid), testing method (such as Kinetic or Colorimetric Endpoint), as well as packaging size. We also provide the option of purchasing our reagents in Teco Diagnostic, Generic or OEM packaging. Combined with our line of calibrators, controls and Chemistry Instrumentation, Teco Diagnostics is your complete source for Clinical Chemistry.

# Chemistry Instrumentation

## TC-84

- Can measure absorbance and concentration based on set points or rates of change
- 12 Tubes 37°C heat block
- Reads, calculates, and prints results in 3 seconds
- 6 wavelengths
- *Optional External Flow Cell available*

## TC-3300 PLUS

- Cuvette and flow cell reading capability
- 6 Wavelengths
- Compact, microprocessor controlled general purpose photometer system
- Onboard incubator

## TC-Matrix Plus

- 200 tests/hour
- More than 30 on board chemistries
- Auto wash system for cuvette washing
- Low water consumption
- User friendly software
- Multiple language interface software
- Full line of ready to use liquid reagents available specifically designed for the TC-Matrix Plus

## Bulk Liquid Reagents

For bulk liquid reagents, Teco Diagnostics offers several varieties of liquid powder that have the same shelf life as our normal liquid reagents, once reconstituted. Our AC/BC reagents include all components needed to make the liquid reagents. Step-by-step instructions make mixing and preparing the reagents simple. For added convenience, Teco also offers ACP liquid powder reagents. These reagents come ready-to-use (just add water) and can be reconstituted in whatever amount needed. Since they contain just one homogenous powder, ACP reagents can be purchased in any amount. Each of these reagents are sold by Teco Diagnostics as unfinished components, which means that the distributor or end user becomes responsible for performing quality control once the components become reagent. Due to the transfer of ownership for product quality from Teco Diagnostics to our distributor or end user we require that an OEM Agreement be put into place outlining the responsibilities attached with purchasing our reagent in component form.

# Serology

Teco Diagnostics' simple, fast and efficient serology tests yield qualitative or semi-quantitative determination of specific proteins or antibodies in human serum. Results are easily interpreted by the presence or absence of agglutination. All necessary components are included in the kits. Serology tests are available in both kit and a variety of bulk formats.

- Dependable and convenient
- Qualitative and Semi-Quantitative results
- Efficient and effective

# Immunochemistry

Teco Diagnostics' line of ELISA (Enzyme-Linked Immunosorbent Assay) reagents utilizes the specificity of an enzyme-linked antibody for antigen to provide accurate quantitative results of various hormones and diagnostics markers in human serum. Each kit comes complete with reagents, standards, and a 96-well antibody-antigen plate.

## Rapid Tests

Teco Diagnostics' rapid tests refer to a variety of card and dipstick tests to quickly and qualitatively determine the presence of a given substance within a sample. These tests are easily interpreted by the presence or absence of a color band within the test zone. Each test contains a built-in control line for added quality assurance. Rapid tests are useful in the testing of fertility, tumor markers, cardiac markers, infectious diseases, drug adulteration, and alcohol testing.

## Pregnancy Care

# Device & Instrument for Blood Analysis

## TC-Glucose Monitoring System\*

- At home or clinical use
- Require only 0.5µl blood sample
- Result ready in 5 seconds
- Auto coding system
- Glucose oxidase enzymatic reaction
- 300 test memory storage
- USB data transfer

## TC-1000 Plus\*

- Sample type: Whole Blood, Serum, Urine
- Sample Volume: 100 ul
- Automatic one or two point calibration
- Measures K<sup>+</sup>, Na<sup>+</sup>, Cl<sup>-</sup>, Ca<sup>2+</sup> and pH analytes
- Throughput: 80 samples per hour
- Storage for up to 1000 samples results
- Built-in thermal printer
- Standard RS-232 port for connection to computer

## TC-Hemaxa 1000\*

- Sample type: Whole Blood
- Sample Volume: 13µl
- Two counting modes: whole blood and prediluted
- Automatic diluting, lyzing, mixing, rinsing and unclogging
- Three-part differentiation of WBC
- 19 parameters + 3 histograms
- Throughput: 60 samples per hour
- Storage for up to 35,000 samples results (including histograms)
- Large color LCD display

\* For Export and Research Use Only

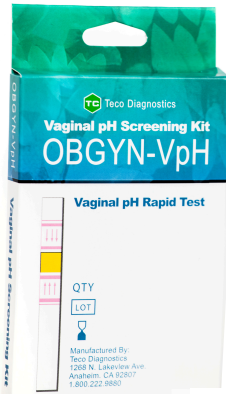

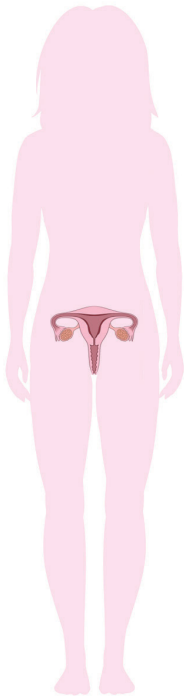

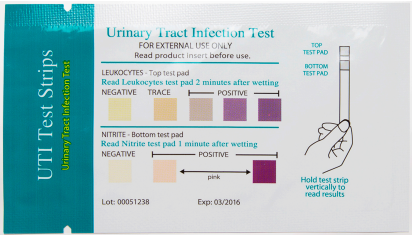

# Women's Health

Teco Diagnostics provides Over-the-Counter products that allow you to check vaginal pH or if you may have a urinary tract infection at home.

## UTI Test Strips

Teco Diagnostics' urinary tract infection (UTI) Test Strips test for white blood cells (Leukocytes) and Nitrite in urine, which aids in the screening for possible infections in the urinary system.

## OBGYN-VpH Vaginal pH Screening Kit

If you are experiencing symptoms of vaginal infections, this fast and easy kit is designed to test vaginal pH to help determine if your symptoms require an appointment with your doctor.

Cat. #	Product/Methodology	Specimen
URS-2L	Leu/Nit UTI Test	Urine
MRS-VpH	Vaginal pH Screening Kit	Vaginal Fluid

## Animal Health

At Teco Diagnostics, we have taken our expertise as a worldwide supplier of Reagent Strips and developed several new products designed specifically for use in the diagnosis of animal health. The Vet-10 Reagent Strips utilize the same technology as our URS line, but detect values over different ranges more suitable for use in the veterinary field.

### VET-10

- Leukocytes
- Nitrite
- Urobilinogen
- Protein
- pH
- Blood
- Specific Gravity
- Ketone
- Bilirubin
- Glucose

### Tank Guard

- Nitrite
- Nitrate
- Hardness
- Alkalinity
- pH

\* For saltwater and freshwater aquariums!

### VET-101

VET-101 is designed specifically for Veterinarians. VET-101 is an advanced, bench top urine analyzer that provides real-time, lab-quality results within minutes to accelerate the patient care decision-making process.

Cat. #	Product/Methodology
VET-UAC	VET Microalbumin/Creatinine Urine Reagent Strips
VET-UPC	VET Protein/Creatinine Urine Reagent Strips
VET-10	VET 10 Urine Reagent Strips
VET-BUN	VET BUN Whole Blood Test Strips
VET-BHB	VET BHB in Milk Test Strips
VET-MUN	VET MUN Milk Test Strips
VET-101	Veterinary Urine Strip Analyzer
TG-25	Tank Guard Nitrite/Nitrate/Hardness/Alkalinity/pH Test Strips

### Customer Service Hours of Operation

Monday - Friday  
8:00 am - 5:00 pm PST

### Contact Information

Phone: 800.222.9880 or 714.463.1111

Customer Service Email: [hello@tecodiagnostics.com](mailto:hello@tecodiagnostics.com)

Fax: 714.463.1169

### Website

To obtain the latest Teco Diagnostics updates and product information, certificate of analyses (COA's), package inserts, product manuals, and MSDS sheets, please visit **[www.tecodiagnostics.com](http://www.tecodiagnostics.com)**.

### Product Specifications

Teco Diagnostics' products and reagents are supplied for in-vitro diagnostic use only. They are not intended to be used as drugs, food additives, cosmetic, household chemicals, agricultural, or pesticidal products. All Teco Diagnostics' products and reagents are warranted until the date of expiration marked on the packaging.

### Pricing

We encourage you to contact our Customer Service Department if you require current pricing information prior to placing an order. Inquiries are also invited for bulk purchases and OEM orders.

### Product Changes

All product specifications, including prices and packaging sizes, are subject to change without notice. Teco Diagnostics reserves the right to amend prices or to discontinue products or sizes without prior notification.

### Ordering Information

To more efficiently process your order, please include the following information:

- Complete shipping address
- Complete billing address
- Purchase order number
- Correct catalog number and product name
- Any special shipping and packaging instructions

For prompt service and delivery, we request that orders be placed by email to your sales representative or by fax. To prevent duplication, all purchase orders must be followed by a written confirmation. No verbal orders accepted.

### Delivery

Shipment of orders will occur within two to four weeks after payment has been received. In the event that an order specifies an item that is not regularly stocked, a partial shipment will be made without prior authorization unless otherwise instructed.

### Payment Details

All orders are prepaid unless prior credit arrangements have been made. All orders are F.O.B. from our headquarters in Anaheim, CA. Freight charges and insurance charges are the responsibility of the customer. Prices are subject to change without prior notice. Payments can be made via letter of credit, wire transfer, bank draft, or credit card. We accept MasterCard and Visa.

### Complaints

To initiate a complaint, please email your sales representative. Please provide your sales order reference number, stock code and product name, lot number, expiration date, description of problem, and number of affected kits.

### Our Products

We sell our products through authorized distributors in over 100 countries worldwide.
